See How to Create An Opportunity Record

Create an opportunity [manually](#) from a contact record.

Find Your Opportunity Records and Add Them to Your

Dashboard

Find [your sales opportunities](#) and [add reports](#) to your Dashboard

Work Your Leads

There are a few different ways to work your leads in Infusionsoft. One of the most common methods is searching for your leads and working them in the Interactive View - this allows you see a list of all your leads and interact with them without having to open each individual contact record.

How To Use The Next Action Fields In An Opportunity Record

Next action dates help you track task commitments related to the direct sales process. The idea is simple - enter notes and the next action date that you want this opportunity to show up on your dashboard. [Click here for a more in-depth article](#) .

Update The Opportunity Summary

The [opportunity summary](#) section is the best place to keep information you want "front and center." It is like putting a sticky note at the top of the opportunity record.

The screenshot shows a web form titled "Opportunity Summary". To the left of the form, the text "e By: 3/7/2013" is visible. The form contains a section for "Contact Information:" with the following details: "Samantha Peterson", "test@test.com", and "Gilbert, AZ". An "Edit..." link is located to the right of the title, with a mouse cursor hovering over it.

Track Product Interest In An Opportunity Record

If you have our E-Commerce module, you can add the products and subscriptions that your opportunity is interested in. Doing this allows a sales manager to forecast revenue. [Click here](#) to learn more

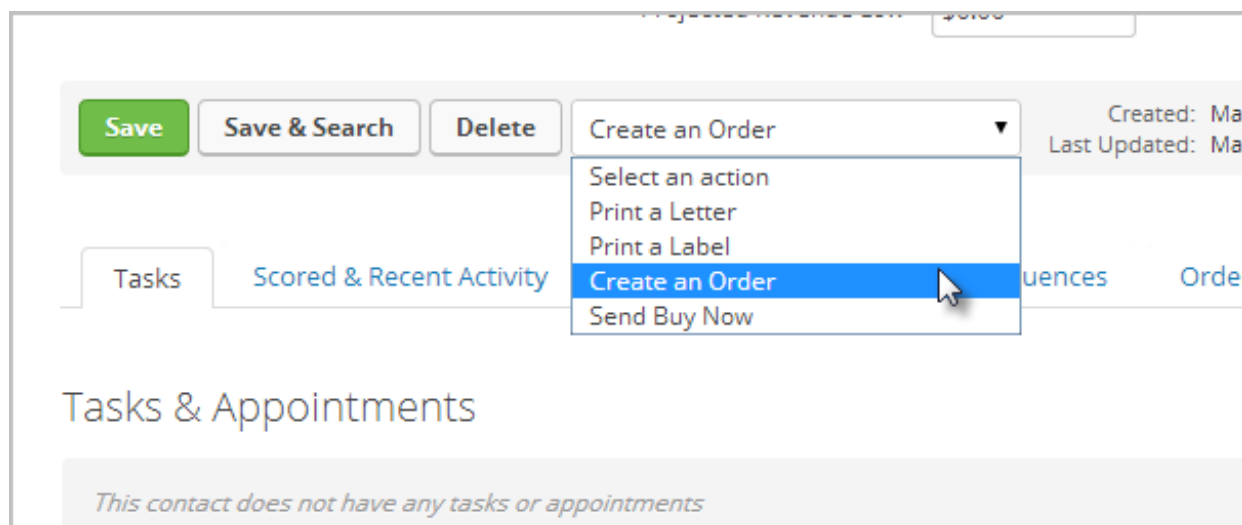

The screenshot displays the "Interests" section of a CRM interface. It features a table with columns: "Products", "Price", "Qty", "Subtotal", "Discount %", and "Total". The table is currently empty, with a message "No Product Interests" at the bottom. To the left of the table, there are labels for "Product", "Subscription Plan", and "Bundle". A search dropdown menu is open, showing a list of products: "Basic Water Testing Kit", "Deluxe Water Test Kit", "Pro Water Test Kit", and "Calcium Hardness Kit". The "Calcium Hardness Kit" is highlighted. Red 'X' icons are visible next to the "Product" and "Subscription Plan" labels.

Send A Buy Now Link From An Opportunity Record

If you have the E-Commerce package and are tracking product interests (shown above), then you can send your opportunity a link to make the purchase online through the shopping cart.

Create An Order From an Opportunity Record

You can also [create an order](#) directly from the opportunity record.

Assign A Referral Partner To An Opportunity

If you are using the Referral Partner Management module, you can [assign a referral partner to the opportunity](#). For example: Your company may have a partner program that pays referral partners commission for the leads they send to you. When a partner sends you a lead, you will need to make sure the referral is tracked in your opportunity record so that the affiliate will receive credit for the lead. The commission is calculated when the deal closes and a purchase is made.
