Create A Failed Purchase Goals

The Failed Purchase Goal will trigger automation in the Campaign Builder when a failed credit card purchase occurs in an Infusionsoft order form or the Infusionsoft Shopping Cart.

1. From the Campaign Builder, click and drag the Failed Purchase Goal onto the canvas.

2. Double Click the Name to edit the name of your goal.

3. Double click the Failed Purchase Goal to Configure. Select **Any Purchase** to trigger the following automation when a failed credit card purchase occurs for any of your products.

Configure Failed Purchase Goal	×
If a purchase fails for: Any Purchase Specific Product Purchase Product in Specific Category Purchase	Cancel Save

4. Select **Specific Product Purchase** to trigger the following automation when a failed credit card purchase occurs for a specific product. Start typing the name of the desired product in the search bar and choose the correct product from the drop-down menu.

Configure Failed Purchase Goal	×
If a purch se fails for: Any Purchase Specific Product Purchase Product in Specific Category Purchase Type to search	
Са	ncel Save

5. Select **Product in Specific Category Purchase** to trigger the following automation when a failed credit card purchase occurs for a product in a specific product category. Click in the search box and select the desired product category from the drop-down.

Configure Failed Purchase Goal											
If a purchase fails for: Ary Purchase Specific Product Purchase Product in Specific Category Pu Please select one	urchase										
Please select one Products Products: Category A Services	Cancel	ive									

4. Click Save to continue. Click and drag a Sequence onto the canvas to the right of your failed purchase goal. Connect the Goal to the Sequence by hovering over the Failed Purchase Goal, left click and hold on the arrow symbol, drag to the Sequence and release.

5. Double click the **Sequence** to configure automation to follow the **Failed Purchase Goal.** Click and drag items from the left side sequence tools menu and place them to the right of the **Start** icon to configure the automated process that will follow the **Failed Purchase Goal**. Double click each **Timer**, **Communication**, or **Process** icon placed on the canvas to configure.
