

# Campaign Sequence - Date Timers

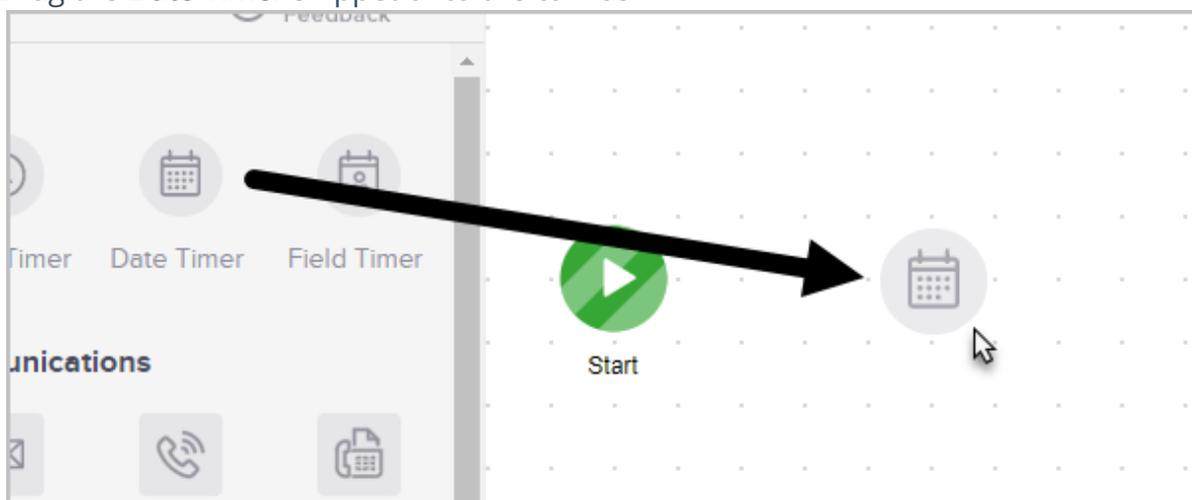

Date Timers allow you to schedule a marketing piece at a specific date and time or within a date/time range.

## Pro Tip!

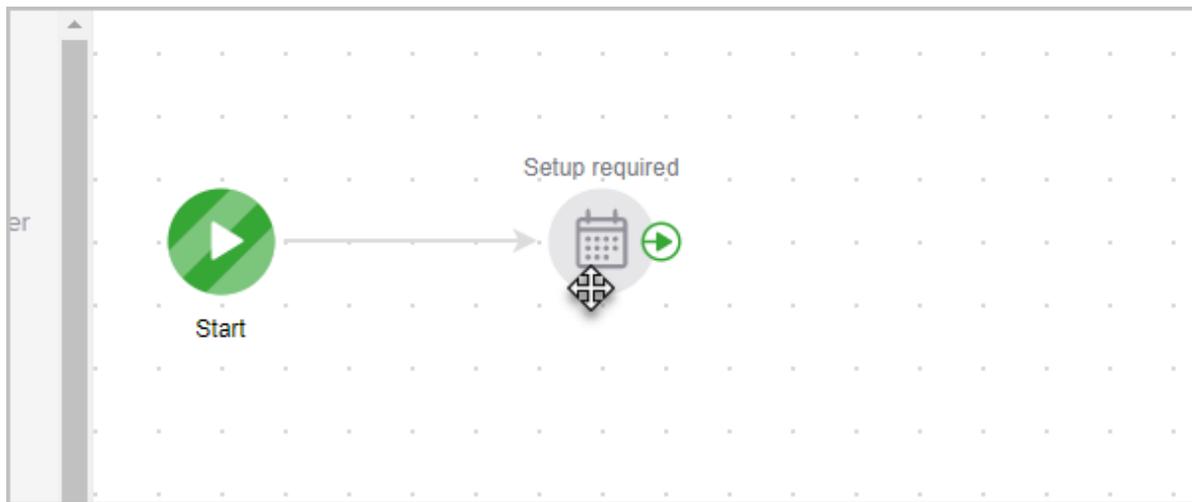

Only one type of timer can be used per "Start" button. Meaning, no Start > Email > Delay Timer > Task > Date Timer. The Date Time would need to be on it's own "Start" button.

1. Drag the **Date Timer** snippet onto the canvas

2. Double-click timer to configure the settings.

3. On the left choose to either:
- Run on a specific date or
  - Run between a date range

### Configure Date Timer

Summary  
Run between **7-23-2019 - 7-25-2019** at **8:00 AM (GMT -07:00) Phoenix**

---

Run  On  **Between**

07-23-2019

📅

07-25-2019

📅

**At**
 **Between**
 **Any time**

▼

AM

Use contact's time zone

4. The on the right choose to either:
- Run **at** a specific time
  - Run **between** a time range
  - Run **any time** meaning the **Date Timer** will run as soon as the contact lands on the process
  - **Use contact's time zone** will send based on the time zone saved in the contacts record (*optional*)

19 at 8:00 AM in the contact's time zone

At  Between  Any Time

8 00 AM

Use contact's time zone

5. The Summary section will display what day/time it will run

### Configure Date Timer

**Summary**  
Run between 7-23-2019 - 7-25-2019 at 8:00 AM (GMT -07:00) Phoenix

Run  On  Between
