

GDPR - Linking To A Privacy Policy🔗

GDPR requires that your Privacy Policy be available on any page that collects personal information.

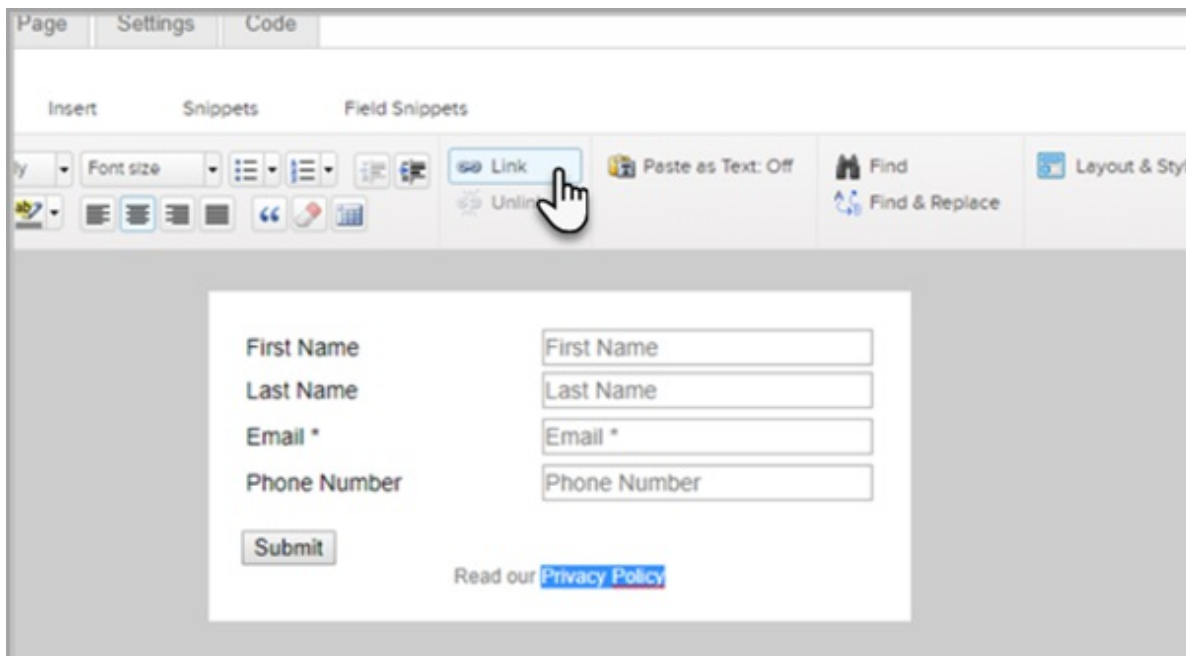

Link to a Privacy Policy on a Web Form

1. Drag a Paragraph snippet below the Submit button.

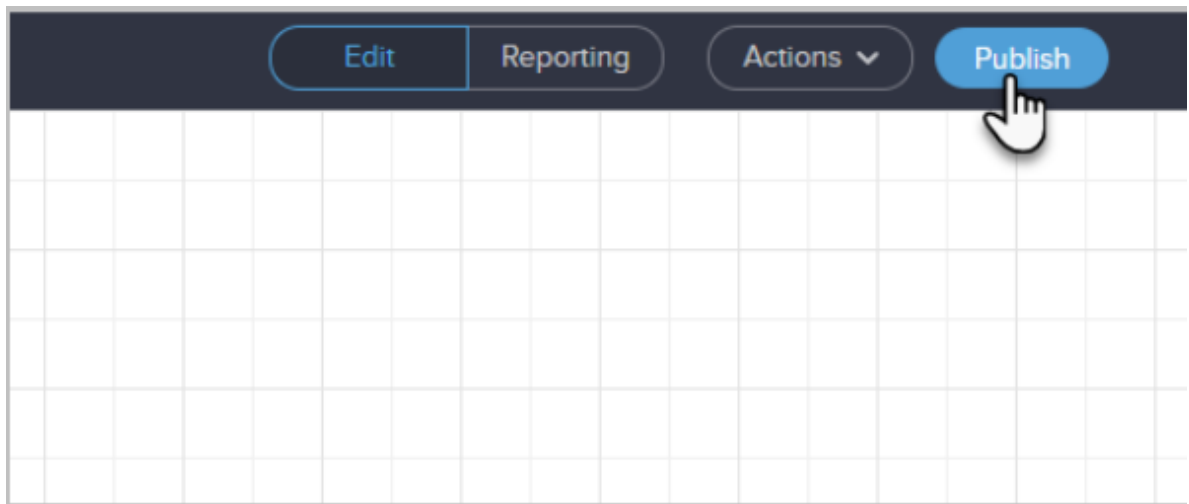

A screenshot of a web form editor. The form contains fields for "Last Name", "Email *", and "Phone Number", each with a corresponding input box. Below these fields is a "Submit" button. A dashed rectangular box is positioned below the "Submit" button, and a "Paragraph" snippet icon is being dragged into it.

2. Type "Privacy Policy", highlight and click the Link button in the editor

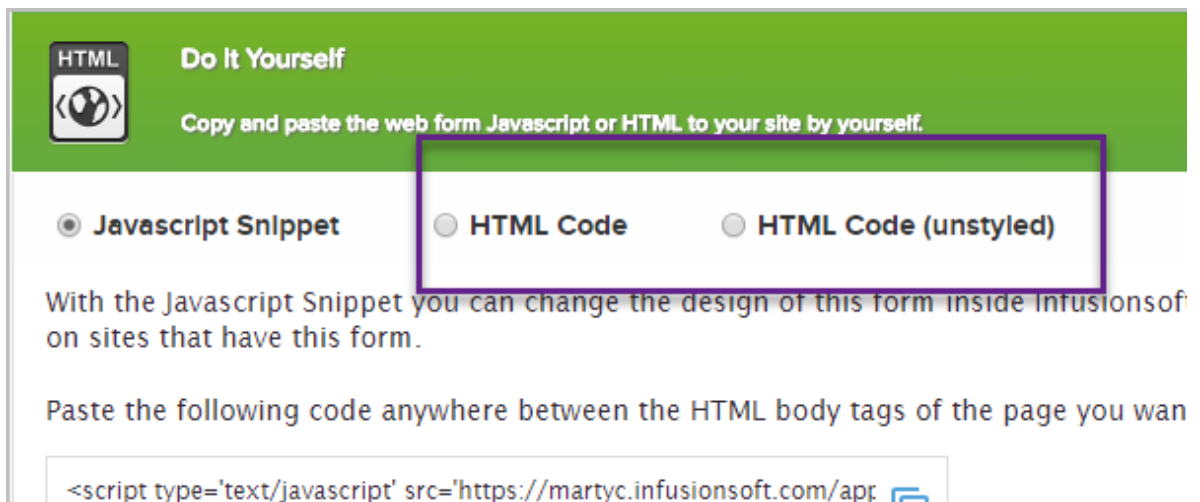

A screenshot of a web form editor. The form contains fields for "First Name", "Last Name", "Email *", and "Phone Number", each with a corresponding input box. Below these fields is a "Submit" button. Below the "Submit" button, the text "Read our Privacy Policy" is displayed. The "Privacy Policy" text is highlighted, and a mouse cursor is clicking the "Link" button in the editor's toolbar.

3. Add the URL to your Privacy Policy web page
4. Make sure to Republish the campaign.

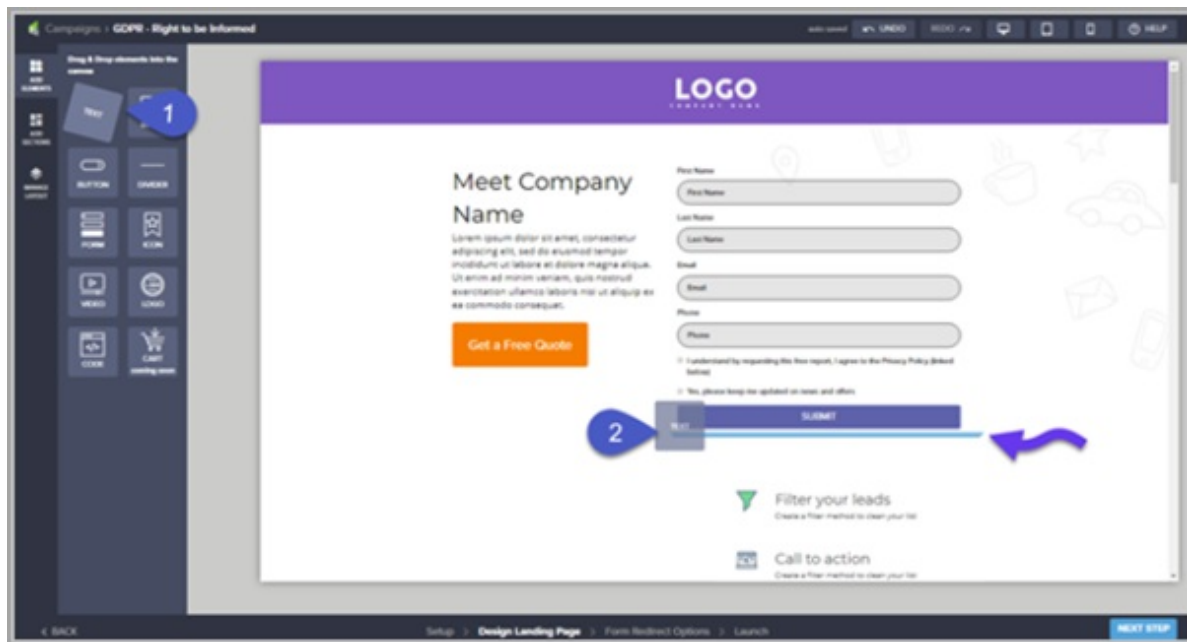

5. If you are using one of the HTML versions, you will need to update your existing code with the new code.

Link to a Privacy Policy on a Landing Page

1. Click the Add Elements block from the left menu and drag until you have a blue line under the Submit button.

2. Click into the Text box and add a link to your Privacy Policy web page.
3. Continue to Next Step your landing page and republish it.
