## Opt-out Web Forms From Automatic Bot Detection %

First, click here to learn more about Web Form Bot Security

This article will show you how to turn off Bot Detection on your Infusionsoft web forms.

1. Go to the campaign that contains the web form that you want to configure

		<b>^</b> (	D ★ 🗱
MY NAV	CRM	MARKETING	E-CON
Dashboard	Contacts	Campaign Builder	E-Com
My Day	Companies	Emall & Broadcasts	Orders
	Opportun	Lead Generation	Product
	Referrar Partners	Templates	Actions
	Visitors	Legacy	Promoti
			Legacy
Edit	Reports Settings	Reports Settings	Reports

2. Double-click the web form goal

## 3. Click on the Settings tab

> Web Form submitted						
	Design	Thank-you Page	Settings	Code		
	Auto-populate Form ⑦					
	Auto-po	opulate this form with	a Contact's in	formation when v	visite	

4. Check the box, "Don't use Google reCAPTCHA for spambot detection."

**Important note!** In the near future this feature will no longer be optional and will be enabled for all Infusionsoft web forms. For now, the "opt-out" box will allow you to select certain web forms to be exempt from this security enhancement so you have some time to make make any necessary process changes.
