

May update 2019 | Infusionsoft by Keap

Redemption Page for Zapier 90 Days Free Offer

Maximize Infusionsoft by Keap with Zapier

We're excited to announce our partnership with Zapier. Bring all of your apps together, and manage it all in Infusionsoft by Keap. Try it free for 90 days and get complimentary coaching through your first "Zap" connection. [Learn more](#) .

Queued Contacts Report

See your queued contacts in Campaign Reporting

We're excited to announce new functionality that enables you to see queued contacts from Campaign Reports, similar to how you can see active contacts. Easily access it from the Campaign Builder. [Learn more](#) .

Distinguish between Billing and Shipping Address

Mass updates easier with address field labeling

Shipping and billing address fields are now clearly labeled, making mass updates to your contact records easy and accurate. Quickly access this feature from the Actions menu on your Contacts page. [Learn more](#) .

Email Sync (Gmail & Microsoft)

Get a total client picture with email sync

This one is exciting! You can now sync Gmail and Outlook with your Infusionsoft account. You'll see all of your emails in the contact record view, giving you the most

comprehensive, up-to-date communication trail possible. [Learn more](#) .

Delinquent Email Smart List

Land in the inbox with Delinquent Emails Smart List

Your sender reputation is a critical factor in getting your emails to their final destination. The newly-launched Delinquent Email Smart List, (1 of 3 auto-segmenting lists) helps you clean up outdated email addresses that are hurting your reputation. [Learn more](#) .
