

July update 2019 | Infusionsoft by Keap

10/02/2024 3:34 pm MST

[Request an update](#)

Enhanced experience for email history

You can now access email history from your email preview, and see your merge fields display as intended, giving you a better view of what your recipients will see. Also, enjoy email history visual improvements across the app. [Learn more.](#)

Content Risk Updates (Broadcast email spam checking)

Infusionsoft now displays any risky content issues in your emails prior to sending a broadcast. If our system deems your email too risky, you will not be able to send it until the offending content is removed. [Learn more.](#)
